

Teargas, Bahrain Credit Corp.

**COMING TO LONDON.**

**WHAT WILL YOU DO?**

## **Coming to London, this September:**

- The world's worst human rights abusing regimes
- The Russian arms suppliers to Syrian President Assad
- The companies supplying teargas used in Turkey, Brazil and Bahrain.
- Israeli companies displaying "battle-tested" weapons

## **What will you do to stop them?**

The government plans to support a massive arms fair this September. The deals that begin here fuel the arms trade the world over. Death, injury, fear and repression are exported from our doorstep.

**Take action to stop it.** Join a week of action from 7-14 September to expose the fair and make its work as difficult as possible.

**If you only do one thing ... be there on Sunday 8 September**  
for a huge protest as arms dealers arrive to set up for the fair.
